

# WANT TO TRANSFORM HEALTHCARE?

Let's go ///

## /// Contigo Health is liberating employers and health systems from the healthcare status quo.

Today, employers pay for nearly 50 percent of healthcare provided in the U.S. Of course, they want the highest level of care for their employees. Meanwhile, health systems are burdened as never before, looking for ways to improve patient outcomes through uncertain times and rising expenses.

Shared objectives. Shared pressures. And now finally, a shared partner in Contigo Health, LLC. A true partner that believes the answer isn't limiting access to care, but rather unleashing the power of innovation and collaboration to get people the right care.

### Who We Are

Contigo Health creates new ways for clinicians, health systems and employers to work together. Contigo Health products support a common goal for all stakeholders: to increase access to high-quality care, enhance employee engagement, control costs and get employees back to work and life faster. With the addition of Health Design Plus, a leading Health Plan Administrative Services (TPA) and Center of Excellence (COE) administrator, Contigo Health delivers even more comprehensive services for optimizing employee health benefits.

## Benefits:

Create direct relationships between employers and health systems to optimize care and grow business.

---

Facilitate access to a clinically led network of like-minded clinicians and health systems that are committed to delivering guideline-driven, patient-appropriate care.

---

Offer solutions and services for health systems and employers to help make their self-funded health plans work harder and drive more value for their employees and their organizations.

## Our Products:

// Health Plan Administrative Services (TPA) by Contigo Health can be tailored to health system employers who want to innovate and optimize domestic utilization, as well as non-health system employers looking for a better way to achieve their employee health benefit goals.

// ECEN by Contigo Health offers an industry leading centers of excellence network with some of the country's top-rated health systems. Through ECEN, your employees can access travel benefit solutions for critical care needs such as cardiac, joint, spine, bariatric, and oncology care, often with little or no out-of-pocket cost to them.
