

UNLEASHING VITAL OUT-OF-NETWORK CLAIMS SAVINGS POTENTIAL

Introducing a smart, flexible repricing solution when it's needed most

It's a harsh healthcare climate.

The steep trend of rising healthcare costs is putting increased pressure on an already strained financial scenario for organizations and individual consumers who pay for healthcare. You've given your plan members the flexibility to seek care from providers that are not contracted, but there's a higher cost associated with that care without pre-negotiated rates with those providers.

Relief is here.

You now have a plug-in solution designed to help contain high out-of-network claims costs through market-leading, pre-negotiated rates almost anywhere out-of-network care is delivered in the U.S. We call it ConfigureNet™ Price Advantage.

For you from the architects of financially sustainable healthcare.

Backed by experience, data, and expertise, Contigo Health, LLC is relentlessly focused on revolutionizing healthcare through appropriate, cost-effective, transparent, and thoughtful benefits design.

What it is...

ConfigureNet™ is a large and rapidly expanding nationwide provider network enabling customers to have access to a full range of out-of-network physicians, specialists, hospitals, and healthcare facilities at a competitive price.
